**Drug and Alcohol-free Religious Place policy**  
**1-1-2021 Version 0.0**

Islamic Foundation North is committed to protecting the safety, health, and well-being of the IFN community in our place of worship. We recognize that alcohol abuse and drug use pose a significant threat to our religious goals. We have established a drug and alcohol free religious place program that balances our respect for individuals with the need to maintain an alcohol and drug free environment. IFN encourages everyone whosoever is affected to voluntarily seek help with drug and alcohol problems. This policy prohibit the use of alcohol and drugs in the masjid while offering prayers when they have alcohol or drugs in their blood system or whilst they are under the influence of alcohol.

We have a zero tolerance and it serves us to eliminate undesirable behavior among IFN community and provide a programmed and spontaneous warning for violating IFN rules. Some of the more prominent issues that fall into a zero

tolerance category are drug abuse and alcohol use. This policy is designed to help IFN implement and enforce alcohol and drug free religious place policy.

The main objective of this policy is to ensure the safety and piousness of the IFN masjid. Zero tolerance policy seek to convey the message that, unless the individuals are able to show that the rule has not been violated, a single infringement will result in their summary dismissal from the masjid premises.

Alcohol and Drugs Violation of policy may lead to disciplinary action, up to and including immediate dismissal of the participant from the prayer services at IFN.

For an Executive Committee of IFN to be able to use its zero tolerance policy to justify the dismissal of a devotee who is praying in the masjid or leading prayers with alcohol or drugs in their blood system, it is important that the EC charges an individual with disobeying of its zero tolerance policy and not being under the influence of alcohol and drugs use.
